

Minutes

**Regulations Review Committee
Harbormaster's Office
19 Harbor Loop
Gloucester, MA 01930
September 21, 2010**

Present: Tony Gross, David Murray, Phil Cusumano, Cate Banks, Jim Caulkett

Chairperson Banks called the meeting to order at 7:03 P.M.

The committee reviewed the comments made by the Waterways Board on the proposed changes to the Mooring Regulations and agreed to change the minimum standards for ground tackle weight and the wording in Section 3 E. These are considered that final changes and the completed document will be presented to the Board for approval.

The committee reviewed the wording changes that are required to the City of Gloucester Code of Ordinances Chapter 10 in order to have both the Code and the proposed Mooring regulations be in agreement. Cate offered to work with Jim to get the wording correct so this can go before the City Council in a timely fashion and thereby allow Jim to be able to enforce the revised regulations for the 2011 boating season.

Meeting was adjourned at 8:24

Respectfully submitted,

Cate Banks
