Chairperson Banks called the meeting to order at 7:12 P.M.

Article V Public Launch Ramps: The committee had long discussions of how to structure and word this section of the Waterways Policies, Rules and Regulations. It was agreed to re-arrange and change the section headings that have been existing in the Regulations and then attempt to fill in wording. References will be made to the Public Access Board and their rules as well as references to the applicable Gloucester code of ordinances. Cate will attempt to draft the wording to be presented at the next Review Committee meeting.

Meeting was adjourned at 8:25 P.M.

Respectfully submitted,

Cate Banks
