ACTION

1. Letter from Stage Fort Park Advisory Committee re: the Cyclo-cross race on October 17 & 18, 2018

(Refer P&D)

Stage Fort Park Advisory Committee  
32 Revere Street  
Gloucester, MA 01930

November 7, 2018

Mr. Michael Hale, Director  
Gloucester Department of Public Works  
Poplar Street  
Gloucester, MA 01930

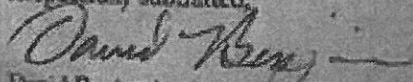

Dear Mr. Hale,

On behalf of the Stage Fort Park Advisory Committee we are writing with concerns regarding the condition of the park following the Cyclo-cross races held on October 17 and 18, 2018. Our committee requests that the entire race course be repaired with loam and hydro-seed before the end of November.

Members of our committee participated in the post-race inspection and found the damage to the park to be extensive. We were assured by the race director that the affected areas would be repaired. We note that currently less than 10% of the course area has been re-seeded. We note that the ball field has been re-seeded but the rest of the race course has not.

We find it urgent that the race course be re-seeded now to allow the new grass to develop this fall. We do not want the re-seeding to be done in the spring.

Respectfully submitted,

David Benjamin, Secretary, SFP Advisory Committee
