

Private Open Space – Inaccessible to the Public (additional category)

Land that is privately owned and inaccessible to the public, but remains important to the overall composition of Gloucester’s open spaces. Any land with a primary use as open space, any single-family parcels over four acres in area (estates), and any parcel that contain unique resources are included in this category. This category has been included in the City’s open space inventory beyond what is required in the Open Space and Recreation Planner’s Workbook in order to better define the continuity and breathe of Gloucester’s open spaces.

Location	Site Name	Owner	Manager	Current Use	Condition	Recreation	Funds Used	Zone	Level Of Protection	Acres
